

Restraint and Involuntary Seclusion Report

Instructions: As required by Oregon Senate Bill 710, adopted during in the 2021 regular session, quarterly reports must be completed and submitted to the Children’s Care Licensing Program (CCLP) regarding restraints and involuntary seclusions of children in care. Reports must also be posted on the Child Caring Agency’s website, if applicable, and must be provided to any member of the public upon request.

Submit reports to cclp.licensing@dhsosha.state.or.us.

Agency Name	Mental Health for Children dba The Child Center
Site or Program Name	Springfield High School
Reporting time frame (indicate which quarter in months and year).	Q3, 2022
Total number of incidents involving restraint.	0
Total number of incidents involving involuntary seclusion.	0
The total number of incidents involving restraint and seclusion that resulted in reportable injuries.	0
Total number of involuntary seclusions in a locked room.	0
Total number of rooms available for use for involuntary seclusion.	0
Description of the dimensions and design of the seclusion rooms.	0
Total number of children in care placed in restraint.	0
Total number of children in care placed in involuntary seclusion:	0
Total number of children in care who were placed in restraint or involuntary seclusion more than three times during the reporting period.	0

Restraint and Involuntary Seclusion Report

<p>A description of the steps the program has taken to decrease the use of restraint and involuntary seclusion.</p>	<p>Children are screened in before admittance to the program for aggressive and/or unsafe behaviors as to minimize the risk associated with potential future restraints. All professionals employed by the program receive significant training in crisis communication and de-escalation techniques to gratefully reduce the need for the use of restraint, unless there is an incident in which there is imminent danger to the client or staff.</p>
<p>Number of incidents in which an individual who placed a child in care in a restraint or involuntary seclusion was not certified or trained in the use of the type of restraint or involuntary seclusion used, including individuals whose certification or training was expired at the time of the restraint or seclusion.</p>	<p style="text-align: center;">0</p>

Demographic characteristics of the children in care who the program placed in a restraint or involuntary seclusion, including race, ethnicity, gender, disability status, migrant status, English proficiency and status as economically disadvantaged, unless the demographic information would reveal personally identifiable information about an individual child in care. Indicate the number of children who experienced restraint or seclusion who match each of the criteria listed below:

Race/Ethnicity:	Total Number of Children
American Indian or Alaska Native	0
Asian	0
Black or African American	0
Hispanic (any race)	0
Native Hawaiian	0
Other Pacific Islander	0

Agency Name	The Child Center
Site or Program Name	IOSS Meadow View Day Treatment
Reporting time frame (indicate which quarter in months and year).	July 1, 2022 - September 30, 2022

Total number of incidents involving restraint.	0
Total number of incidents involving involuntary seclusion.	0
The total number of incidents involving restraint and seclusion that resulted in reportable injuries.	0
Total number of involuntary seclusions in a locked room.	0
Total number of rooms available for use for involuntary seclusion.	0
Description of the dimensions and design of the seclusion rooms.	0
Total number of children in care placed in restraint.	0
Total number of children in care placed in involuntary seclusion:	0
Total number of children in care who were placed in restraint or involuntary seclusion more than three times during the reporting period.	0
A description of the steps the program has taken to decrease the use of restraint and involuntary seclusion.	Children are screened for the program in a multi-step process before admittance to the program for

aggressive and/or unsafe behaviors. If a child is determined to be at a high risk for needing a restraint, they would not be approved for day treatment as to minimize the risk associated with potential future restraints.

All professionals employed by the program receive significant training in

	understanding the needs behind
	children's behaviors and de-escalation
	techniques to greatly
	reduce the need for the use of
	restraint, unless there is an incident in
	which there is imminent danger to the
	client or staff.
	All client's have a safety and
	behavioral plan written at time of
	admittance. This plan is re-evaluated
	and amended as needed throughout
	their treatment in the Day TX program
	to keep it current to the individuals
	needs. Client's caregiver's are made
	aware at the beginning of treatment
	that if child becomes physically
	aggressive and staff are unable to de-
	escalate, or multiple incidents of
	unsafe behaviors occurred while child
	is in program, client will be
	asked to return home to receive
	services through telehealth until a
	safety plan can be completed
	addressing behavior. Client's will not
	be able to receive ongoing Day TX
	services if safety plan cannot be
	followed by the client and there is a
	continuing high risk of physical
	intervention needed.

<p>Number of incidents in which an individual who placed a child in care in a restraint or involuntary seclusion was not certified or trained in the use of the type of restraint or involuntary seclusion used, including individuals whose certification or training was expired at the time of the restraint or seclusion.</p>	0
